Overview

HP StorageWorks Modular Smart Array 1000 for Microsoft®, Linux, NetWare and (limited) HP-UX environments

The HP StorageWorks Modular Smart Array 1000 (MSA1000) is a 2 Gb Fibre Channel storage system designed for the entry-level to mid-range Storage Area Network (SAN). Designed to reduce the complexity, expense and risk of SAN deployment, the MSA1000 is a scaleable, high performance storage system built with investment protection in mind. The modular design of the MSA1000 allows the user to easily add storage capacity as needed. With the addition of two HP StorageWorks MSA30 disk enclosures with space for forty-two enterprise-class drives, maximum storage capacity is 6TB. All necessary configuration & management programs are included and there are no unexpected charges for extra licenses as your capacity needs grow or as you attach more servers.

The MSA1000 is a member of the HP StorageWorks Modular Smart Array family, delivering industry-leading technology to meet today's demanding and growing storage needs. These storage solutions offer the best price performance features for direct attach environments, small clusters, and entry-level and mid-range SAN environments. Each solution is designed to maximize transfer rates, reduce management costs, while driving rapid return on investment.

Heterogeneous support is standard for Microsoft Windows® Server 2003 (32-bit and 64-bit) Windows 2000, Windows NT®, NetWare and Linux (32-bit and 64-bit) operating systems. In addition this firmware provides separate support for Alpha servers in a Tru64 UNIX® or OpenVMS environment. Information about the support for these two operating systems is included in a separate QuickSpec for the MSA1000 attached to Alpha-based servers. In April of this year HP expanded the MSA1000's operating system coverage with the addition of basic HP-UX support in limited, homogeneous configurations.

Key Features

The MSA1000 offers the following key features:

- High performance controller(s) built on DAS to SAN {DtS} architecture for maximum investment protection
- 4U rackmount design combining both the controller and disk shelf
- 2 Gb Fibre Channel host connections
- Optional embedded 8-port 2 Gb Fibre Channel Fabric Switch or 3-port 2 Gb Fibre Channel hub
- Support for enterprise class HP Ultra2, Ultra3, and Ultra320 Universal 1" Drives
- Scaleable from 1 to 42 drives via HP StorageWorks drive enclosures for up to 6 TB of storage
- Compatible with ISV backup and restore software from Hewlett Packard, VERITAS and others

What's New

- Support for HP-UX, the industry's No. 1 rated UNIX® operating system, in a homogeneous environment in defined configurations with alternative MSA1000 firmware.
- Support for HP Serviceguard, industry leading high availability clustering software with over 80,000 server licenses sold, for ProLiant and Integrity servers on Linux.

Recent Enhancements

- A new MSA1000 SAN Starter Kit provides an easy and inexpensive way to build a Storage Area Network It includes the MSA1000 itself along with the unique MSA SAN Switch 2/8 embedded option, two of the FCA24214 Host Bus Adapters for Windows or Linux servers, and cabling. As always, the MSA1000 comes complete with configuration and management tools in addition to HP's Selective Storage Presentation software, all at no extra charge.
- Complementing the MSA1000 SAN Starter kit are two High Availability Kits for either a Windows or Linux environment. This option gives you a second array controller, a second switch, two more of the FCA2214 HBAs, cabling, and HP StorageWorks Secure Path software for either Windows or Linux. It's an easy and cost efficient option that brings the user the redundancy protection many users desire.
- Institution of a factory-based Configure To Order (CTO) program

MSA1000 Highlights

High Levels of Performance, Scalability, and Functionality

- **Performance** – The MSA1000 and its components have been designed using the latest industry standard 2 Gb interconnects and Fibre Channel technology. Performance tests indicate a data transmission rate of up to 30,000 IOPS and bandwidth of up to 200 MB per second. (Single MSA1000 Controller)
- **Modular Chassis** – The modular design of the MSA1000 cabinet supports up to fourteen 1" Universal hard drives, redundant controllers, 2 Gb embedded fabric switches or hubs, fans and power supplies in a 4U rackmount cabinet.
- **Scalability** – The MSA1000 is easily expanded. The MSA1000 cabinet scales to 2.0 TB using fourteen 146 GB, 1" HP Universal hard drives. By simply adding additional StorageWorks disk Enclosures (two enclosures max), the MSA1000 scales to 6.0 TB using forty-two 146 GB 1" HP Universal hard drives – all within 10U of rack space.
- **MSA SAN Switch 2/8** –The optional MSA SAN Switch 2/8, which can be installed within the MSA1000 cabinet, offers 2 Gb full fabric performance at an attractive price. A second MSA SAN Switch 2/8 can be installed for redundancy. There are seven pluggable ports available (four SFPs are included). The 8 port is directed internally to the controller.
- **MSA Hub 2/3** – The optional MSA Hub 2/3, which can be installed within the MSA 1000, offers 2 Gb performance. With two ports accessible by the user, the MSA Hub 2/3 is the ideal interconnect for low-cost 2-node clustering or simply attaching two servers. A second MSA Hub 2/3 can be installed for redundancy. This hub ships with two SFPs included. Not yet available for Alpha or HP-UX environments.
- **Hot Plug Expansion and Replacement Support** – The MSA1000 supports hot plug expansion and replacement of hard drives, redundant controllers, fabric switches or hubs for simple, fast installation and maintenance. Fans and power supplies are also hot plug replaceable.
- **Advanced Data Guarding (RAID ADG) Fault Tolerance** – This is the highest level of fault tolerance. It allocates two sets of parity data across drives and allows simultaneous write operations. This level of fault tolerance can withstand two simultaneous drive failures without downtime or data loss.

MSA1000 Highlights

DtS Architecture (Direct Attach to SAN) Data Migration

DtS (Direct Attach to SAN) architecture is an exclusive MSA1000 feature that provides a quick and easy way to migrate stored data protected by most Smart Array controllers to a MSA1000 storage system.
Data that is currently stored on 1" Universal disk drives using recent HP Smart Array controllers, as well as data on a RA4100 can easily be migrated to the MSA1000. Simply remove the drives from the older systems and insert them into the MSA1000. All configuration information and data will be preserved allowing migration to be completed in minutes, not hours or days. Refer to the MSA1000 DtS Data Migration White Paper for a list of compatible Smart Array controllers and further details.

Broad Server, Operating System and FC Interconnect support

The modular and scalable design of the MSA1000 provides an extremely flexible platform. You can buy what you need today and purchase additional capacity and performance as your data storage needs grow, instead of making a large up-front investment. Additional drives, controllers, cache, fabric switches and storage enclosures can easily be added, as your storage needs change.

- **Fabric Support for 1 Gb and 2 Gb Infrastructure** – The MSA1000 supports both 1 Gb and 2 Gb Fibre Channel fabrics to ensure that your investment in 1 Gb infrastructure is protected.
- **Optional embedded interconnects** – Both the MSA SAN Switch 2/8 and the MSA Hub 2/3 require no rack space as they are installed in the MSA1000's chassis. This not only saves valuable rack space (up to 2U saved) but also eliminates some of the cabling needed with external interconnects. The MSA SAN Switch 2/8 ships with 4 SFPs installed and the MSA Hub 2/3 ships with 2 SFPs.
- **Universal Hard Drive** – Since the MSA1000 supports HP Universal 1" Ultra2, Ultra3 and Ultra320 drives, your investment in SCSI technology is protected and cost is minimized as you add new drives. Sharing of a common universal drive form factor between your servers and storage can significantly reduce needs for hardware and spare inventory, and offer overall reduction in storage management and business costs.
- **Pre-Failure Warranty** – Drives installed in an MSA1000 and monitored under Insight Manager are supported by a Pre-Failure (replacement) Warranty.
  NOTE: Pre-Failure Warranty allows for the replacement of designated drives in an MSA1000 before they actually fail when using Insight Manger on ProLiant servers.
  NOTE: Some operating systems may not support all of these features.
- **Multi-platform Intel®-based Server Support** – The MSA1000 offers Multi-platform Intel-based (x86) server support to allow a broad range of Intel-based servers to take advantage of the MSA1000's scalability, flexibility and connectivity, and supports ACU and Insight Manager. When used with a ProLiant server, the MSA1000 also provides unparalleled integration with the MSA1000 Support CD and Pre-Failure Warranty support.
- **Alpha server support** – The MSA1000 also supports Alpha-based servers operating in a Tru64 UNIX or OpenVMS environment. This support is enabled by replacing the controller firmware that comes standard with the MSA1000. Refer to the MSA1000 QuickSpecs for Alpha servers for details.
- **HP-UX PA-Risc and Itanium-based server support** - In April of this year HP announced basic MSA1000 HP-UX support in limited, homogeneous configurations. Coverage extends to HP-UX 11.11, and 11.23 and a wide-ranging list of Integrity and HP9000 servers.
- **Integrated Configuration and Management Tools** – The MSA1000 utilizes a standard, integrated set of management and utility software. These tools consistently lower the cost of ownership by reducing training and technical expertise necessary to install and maintain the MSA1000.

The MSA1000 comes with/supports the following configuration and management tools depending on what operating system:

Configuration (solution chosen as appropriate for operating system)

- **Array Configuration Utility** (ACU). ACU is a browser-based disk configuration utility that lets you view, set up, and configure the array controllers and storage systems.
- **Command Line Interface** (CLI)

Management/Health (solution chosen as appropriate for operating system)

- **Insight Manager** (IM)
- **EMS** Used in conjunction with HP-UX servers
- **Array Diagnostics Utility** (ADU) This utility collects information about the array controllers in the system and generates a list of potential problems it has identified. It produces a report that can be saved to a diskette and analyzed by support technicians to aid in problem resolution.

ACU/ADU Bootable Utility (solution chosen as appropriate for operating system)

- The **MSA1000 Support Software CD** is a bootable media that enables a server to boot into a Linux shell and launch the ACU allowing the user to configure the MSA1000 storage or generate a diagnostic report without requiring a pre-installed operating system or drivers.

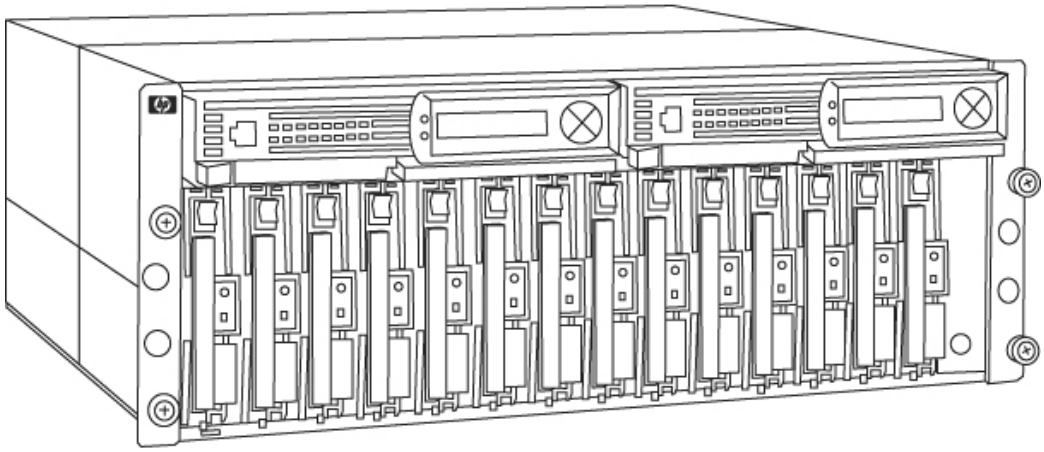
MSA1000 Highlights

Compatibility	**Servers**	Supports most 32-bit ProLiant servers including BL20p G2, BL40p, DL320, DL320 G2, DL360 G2, DL360 G3, DL380 G2, DL380 G3, DL560, DL580, DL580 G2, DL740, DL760, DL760 G2, ML370 G2, ML370 G3, ML530 G2, ML570, and ML570 G2. Certification of new ProLiant models is ongoing. Supports most multi-vendor industry standard 32-bit Intel-based (x86) servers. Supports most 64-bit Integrity and PA-RISC servers Also supports specific Alpha servers running Tru64 UNIX or OpenVMS.

Models

HP StorageWorks Modular Smart Array 1000	MSA1000, with 256 MB cache	201723-B22
	MSA1000 Controller, with 256 MB cache	218231-B22
	256 MB Cache Module upgrade for Controller	254786-B21
	MSA Fibre Channel I/O Module	218960-B21
	MSA Hub 2/3 (integrated) ships with 2 SFPs installed	286763-B21
	MSA SAN Switch 2/8 (integrated) ships with 4 SFPs installed	288247-B21
	NEW HP StorageWorks MSA1000 SAN Starter Kit (Windows or Linux compatible) **NOTE:** Includes (1) MSA1000 (1) MSA SAN Switch 2/8 (2) FCA2214 + cables.	353803-B22
	NEW HP StorageWorks MSA1000 High Availability Upgrade Kit for Windows (for SAN Starter Kit) **NOTE:** Includes (1) redundant controller; (1) MSA SAN Switch 2/8; (2) FCA2214 HBAs; cables plus a ProLiant HA/F200 kit with Secure Path for two servers. Designed as an upgrade for the MSA1000 SAN Starter Kit.	353804-B21
	NEW HP StorageWorks MSA1000 High Availability Upgrade Kit for Linux ((for SAN Starter Kit) **NOTE:** Includes (1) redundant controller; (1) MSA SAN Switch 2/8; (2) FCA2214 HBAs; cables plus Secure Path for Linux Workgroup Edition for two servers. Designed as an upgrade for the MSA1000 SAN Starter Kit.	353805-B21
	FCA2214 Host Adapter (Linux & 32-bit Windows)	281541-B21
	FCA2214DC dual channel Host Adapter (Linux & 32-bit Windows)	321835-B21
	Host Adapter for Windows Server 2003 64-bit, Integrity servers	AB232A
	Host Adapter for 64-bit Linux, Integrity servers	A6826A
	FCA2210 Host Adapter (NetWare)	281540-B21
	FCA2404 Host Adapter PCI-X (32-bit Windows)	305573-B21
	FCA2404DC dual channel Host Adapter PCI-X (32-bit Windows)	323264-B21
	FCA2384 Host Adapter PCI-X (Tru64 UNIX, OpenVMS only) (6-3)	302784-B21
	FCA2384 Host Adapter PCI-X (Tru64 UNIX, OpenVMS only) (2-5-2)	DS-KGPSA-EA
	HP-UX HBA: PCI 2GB Fibre Channel Adapter	A6795A
	HP-UX HBA: PCI-X Dual Channel 2Gb Fibre Channel	A6826A
	HP-UX HBA: PCI-X 2Gb Fibre Channel/1000Base-SX	A9782A
	HP-UX HBA: PCI-X 2Gb Fibre Channel/1000Base-T	A9784A
	2 Gb SFP SW Transceiver Kit	221470-B21
	Modular Smart Array 30 (MSA30) drive enclosure, single bus	302969-B21
	HP StorageWorks Secure Path v4.0C for Windows Workgroup Edition	213076-B26
	HP StorageWorks Secure Path v3.0C for NetWare Workgroup Edition	222411-B22
	HP StorageWorks Secure Path v3.0A for Linux Workgroup Edition	291536-B22
	ProLiant Cluster HA/F100 for MSA1000 for NT 4.0, Windows 2000 and Windows 2003 (dual server, single path)	252408-B24
	ProLiant Cluster HA/F200 for MSA1000 for NT 4.0, Windows 2000 and Windows 2003 (dual server, redundant path)	252409-B24

Models



MSA1000 Components

With the following components, your storage capacity and performance can be scaled to new levels:

HP StorageWorks Modular Smart Array 1000

The 4U cabinet houses up to fourteen 1" Universal hot pluggable Ultra2, Ultra3, and/or Ultra320 drives. Each MSA1000 includes the following standard components: (1) MSA1000 Controller, (1) MSA Fibre Channel I/O Module with a single SFP, dual hot pluggable fans/power supplies and power cables, documentation and a support software CD.

The modular design of the MSA1000 makes it possible to add redundant controllers, redundant single port Fibre Channel I/O Modules, 3-port hub, or embedded fabric switch and storage expansion enclosures. Additional storage enclosures may be added without power cycling the MSA1000.

MSA1000 Controller

The MSA1000 Controller is an integrated RAID controller with an LCD/LED status display and 256 MB read/write battery-backed cache (expandable to 512 MB per controller). One MSA1000 Controller is included with the MSA1000; a redundant MSA1000 Controller is an option. Purchase of Secure Path software is a requirement if a second controller is chosen.

Key Features

- Redundant controller support with mirrored cache
- Fabric, Private Loop & Public Loop Support
- Auto Negotiated F, FL & L Port Login
- RAID 0, 1, 1+0, 5 and ADG
- 2 Gb/1 Gb Frequency Agile
- Primary & Secondary Inter-Controller Link (ICL)
- Host based configuration via ACU (OS dependent)
- Optionally configurable with Command Line Interface (CLI)
- Remote configuration and monitoring via ACU (offline and remote) & Insight Manager (OS dependent)

MSA1000 Controller Management Features

- **Selective Storage Presentation**: allows multiple hosts to access a single MSA1000 storage system. Host access can be defined all the way down to a logical volume level.
- **Online RAID Level Migration**: allows for online post-configuration change to RAID level without destroying data or volume information.
- **Online Capacity Expansion**: : lets you add storage to an operational MSA1000-reducing expensive server downtime.
- **Global Online Spare**: reduces the risk of data loss by facilitating automatic rebuilds after a drive failure.

Fault Tolerance

Several fault tolerant configurations which keep data available and servers running while drives are being replaced are supported including:

- Advanced Data Guarding (RAID ADG): Allocates the equivalent of two parity drives across multiple drives and allows simultaneous write operations.
- Distributed Data Guarding (RAID 5): Allocates parity data across multiple drives and allows simultaneous write operations.
- Drive Mirroring (RAID 1, (1+0 Striped Mirroring)): Allocates half of the drive array to data and the other half to mirrored data, providing two copies of every file.

Fault Recovery

Minimizes downtime, reconstructs data, and facilitates a quick recovery from drive failure:

- Online Spares: If a failure occurs, recovery begins with an online spare and data is reconstructed automatically. Multiple online spares can be assigned per array and used across multiple arrays. It is also possible to assign different online spares across different arrays.
- Array Accelerator: Onboard, battery-backed cache memory protects data in the event of a power failure. In the unlikely event of a controller failure, the battery-backed cache will save critical user data for up to three days.

MSA1000 Components

MSA Fibre Channel I/O Module

Provides a single 2 Gb Fibre Channel connection per controller from the host side into the MSA1000. The MSA Fibre Channel I/O Module includes one 2 Gb, Short Wave, Small-Form-Factor-pluggable Transceiver (SFP). A second MSA Fibre Channel I/O Module can be installed for redundancy when a redundant controller is used.
The single I/O module can be used in a direct connect configuration (no switch or hub) in Windows, Linux, NetWare only.

MSA SAN Switch 2/8 (embedded)

The optional MSA SAN Switch 2/8 offers low price per port and full scalability, doing so while taking zero rack space, even in a redundant configuration. This second generation integrated switch option offers the customer more ports than our previous offering and is a full member of the HP SAN Switch family, assuring interoperability from the smallest to the largest SAN configuration. The HP StorageWorks MSA SAN Switch 2/8 can be used by the true entry-level customer looking for a very inexpensive switch based on cost per port. This same switch can be attractive to the larger customer who must have the interoperability with their other external B-Series SAN switch products from HP and especially appreciates the rack space saving characteristics.
(The MSA SAN Switch 2/8 replaced the obsolete MSA Fabric Switch 6 option.)

Key Features

- Eight 2 Gb ports: 1 to controller, 7 user accessible
- Product ships with 4 SFPs installed
- No E-port restriction, accepts all optional software
- Interoperates with external HP B-Series SAN Switch 2 Gb switches
- Configuration and management methodology common with SAN Switch product line, same methods as installed base of 30,000+ HP 1 and 2Gb SAN Switches

---

MSA Hub 2/3 (embedded)

The HP StorageWorks MSA Hub 2/3 is a low-cost interconnect designed for clustering or low cost, high speed attachment of two servers to the MSA1000. The MSA Hub 2/3 is a 3-port Fibre Channel Arbitrated Loop hub that is mounted on a blade that easily installs inside the MSA1000 storage unit, saving valuable rack space. Two of these hubs may be installed for redundancy within the MSA1000. The MSA Hub 2/3 is not cascadable. It is not presently certified for Alpha or HP-UX environments.

The hub presents the user with two SFP ports for simple direct attachment to two single or clustered servers without having to purchase an external interconnect device. It offers the most cost-effective solution for a user to enable a clustered server environment.

- High Performance: supports MSA1000 with a 2 Gb interconnect capable of 200 MB speed
- Low Cost: supports the entry-level SAN array with the most cost effective option for 2-node clustering
- Compact: imbeds in the MSA1000, replacing the I/O module, saving valuable rack space
- Complete: comes with two SW SFPs - no need for further investment
- Not qualified with servers utilizing HP-UX, Tru64 UNIX or OpenVMS operating systems at this time.

---

2 Gb Small Form Factor pluggable (SFP) SW Transceiver Kit

2 Gb Small-Form-Factor-pluggable (SFP) SW Transceivers are industry standard connection devices, which hot plug into 2 Gb infrastructure components such as 2 Gb Fabric Switches. HP StorageWorks 2 Gb SFP SW Transceivers support distances up to 300 meters at 2 Gb and 500 meters at 1 Gb using multi-mode fiber optic cable.

Multi-Mode Fibre Channel Cables

Multi-Mode Fibre Channel cables provide a thin, flexible cabling solution that is immune to electromagnetic interference. HP offers cables to connect the MSA1000 to both 2 Gb and 1 Gb Fibre Channel infrastructures. LC to LC cables are used when connecting the MSA1000 to other 2 Gb Fibre Channel components because both connections will utilize small form factor transceivers. LC to SC cables are used when connecting the MSA1000 to 1 Gb Fibre Channel components. 1 Gb components use the larger GBIC style transceivers.

Software Components

The MSA1000 utilizes a single, consistent set of utility software for storage and RAID management, setup, configuration and troubleshooting. This consistency reduces the cost of ownership by reducing the training and technical expertise necessary to install and maintain your HP storage solution.

Array Configuration Utility (solution chosen as appropriate for operating system)

- Provides a graphical view of HP drive array configurations
- Easy to use Wizards for configuration
- ACU supports on-line configuration
- Web Based ACU supports On-Line, Remote Web Based and Off-line configuration
- Runs online on Microsoft Windows NT 4.0 and Microsoft Windows 2000

Selective Storage Presentation (SSP)

- Built-in to MSA1000 Controller firmware and controlled via ACU
- Allows setting of access rights to the MSA1000 storage by hosts
- Access control can be set up to a logical volume level using the Array Controller Utility

---

Insight Manager (solution chosen as appropriate for operating system)

- Powerful storage, server and server option management tool
- Monitor storage from a remote central location
- Browser based CIM provides full access from anywhere on the Intranet, eliminating the need for a dedicated Insight Manager management console

---

HP OpenView storage virtual replicator, one license ships standard (Microsoft environments)

Storage Virtual Replicator combines a rich set of innovative capabilities that enhances and simplifies storage management for Windows Server 2003 and Windows 2000 environments. Through virtualization, online volume growth, snapshot and management features, the software complements the capabilities within the operating system. HP OpenView Storage Virtual Replicator enables storage consolidation and local volume replication within the pools. A HP OpenView Virtual Replicator CD with a single system license and ten 60-day evaluation licenses are included with the MSA1000. Additional licenses of Virtual Replicator are available through your local HP sales office.

Key Features

- Support for Windows 2000 and Windows Server 2003
- **Virtualization** - multiple storage arrays can be consolidated into a pool of disk space for individual or clustered systems to use. Multiple virtual disks, up to 2 terabyte in size, can be created from a pool for users and their applications. Existing storage units with production data can be imported into a pool. The data partition is preserved as a virtual disk and unused capacity is added to the pool.
- **Online volume growth** - Enables easy, non-disruptive growth for Windows 2000 or and Windows Server 2003 with zero downtime. Allows a system administrator to grow an existing volume on virtual disks and Windows 2000 basic disk. The system will remain online, and the data on the volume will remain intact.
- **Snapshots** - Instant, point-in-time snapshots for backup, online restore, testing or data mining. Enable instant creation of multipurpose virtual replicas of production data without the requirement of a physical copy Snapshots identical to ordinary physical disks, with both read and write capability. Snapshots can remain online for restore operations, testing, and data mining. Full interoperability with the Windows Server 2003 Volume Shadow-copy Service (VSS).
- Full cluster-aware
- Command line interface for scripting
- Scheduling wizards for repetitive operations

Please refer to the Optional Software section of this document or visit http://www.hp.com/go/msa1000 for additional details.

Software Components

OS Support

- Microsoft Windows Server 2003 (32 & 64-bit)
- Microsoft Windows 2000 Server and Advanced Server (sp3)
- Microsoft Windows NT 4.0 Server and Enterprise Edition (sp6a)
- NetWare 5.1, 6 and 6.5
- Red Hat Linux Enterprise Advanced Server 2.1 and Enterprise Linux 3.0 (32 & 64-bit)
- SuSE Linux SLES 8 (32 & 64-bit)
- Tru64 UNIX or OpenVMS supported in homogeneous environments only. Please refer to compatibility matrix at http://www.hp.com/go/msa1000 for complete configuration support.
- HP-UX 11.11, and 11.23 homogeneous environments only. (limited single controller homogeneous configurations)

HP-UX Phase 1 support

The first phase of MSA1000 for HP-UX supports single controller configurations only. This support is enabled by upgrading the controller firmware of the MSA1000 to an alternative version, available free of charge at the MSA1000 web page at http://www.hp.com/go/msa1000. Initially HP-UX support is of a homogeneous nature. Command Line Interface (CLI) is used for configuration and Event Monitoring Service (EMS) for monitoring. Root/Boot/Dump/Swap/Install is also supported. PV Links is supported for multi (HBA) path / single controller (2 HBAs) configurations.

- Command Line Interface (CLI) is used for configuration and Event Monitoring Service (EMS) for monitoring.
- Root/Boot/Dump/Swap/Install is also supported.
- PV Links is supported for multi (HBA) path / single controller (2 HBAs) configurations.
- Fabric, hub and direct Connect are supported
- HP-UX 11.11 & 11.23, PA-RISC and Itanium

Software Certifications

- Microsoft Cluster Server Certification
- HP Serviceguard for Linux
- Hewlett Packard Data Protector
- VERITAS Backup Exec and NetBackup
- Legato NetWorker for Windows
- Computer Associates BrightStor Enterprise Backup
- SteelEye LifeKeeper for Linux Certification

Please refer to compatibility matrix at http://www.hp.com/go/msa1000 for complete configuration support.

Optional Software

HP StorageWorks Secure Path

HP StorageWorks Secure Path is a family of high availability multi-pathing software products providing continuous data access from the HP RAID Array to host servers running the Windows Server 2003, Windows 2000, Windows NT, Linux and NetWare operating systems.
Redundant hardware, advanced RAID technology and Secure Path's automated failover capability are used to enhance fault tolerance and availability. Secure Path effectively eliminates controllers, disk drives, interconnect hardware and host bus adapters as single points of failure in the storage subsystem.
The attachment of non-Secure Path (single HBA) servers to an MSA1000 with dual controllers that has servers with Secure Path (dual HBA) attached is supported where the operating systems are Windows or NetWare. Users must realize that in event of a controller fail-over (failure of active controller) the single path servers will lose access to their data on the MSA1000.
NEW - Secure Path can now support up to an 8-node cluster in Windows Server 2003.
NOTE: If Secure Path for Linux is used on any node or cluster attached to an MSA1000, all nodes must also have Secure Path installed, regardless of operating systems.
NOTE: refer to http://www.hp.com/go/securepath for the latest Secure Path parameters.

Key Features	Maintains connections to storage
	Monitors I/O paths and alerts on significant events
Used in	Stand alone Configurations
	Cluster configurations
	SAN configurations

MSA1000 clustering

Clustering is rapidly gaining in popularity as users desire a high level of data availability. Many of the old cluster restrictions that were the product of both hardware and operating systems have been overcome. While there still remain configuration limits, the result is a new high degree of flexibility both in number of clusters, mixing clusters with single nodes, and the integration of dissimilar operating systems.
For example you may mix three Microsoft (Windows Server 2003, Windows 2000, or Windows NT) clusters and other individual servers, even doing so in a heterogeneous server operating system environment. Windows Server 2003 allows a single cluster of up to eight nodes, now with Secure Path protection.
Single-path (single controller, non-Secure Path) NetWare clustering has been successfully tested up to a 12-node cluster. NetWare clusters employing Secure Path (dual controller, dual HBAs) are limited to six nodes. Multiple NetWare clusters (and single servers) may have concurrent access with no limitation inherent to the MSA1000.
Likewise up to a 16-node Linux cluster (single controller, non-Secure Path) utilizing SteelEye LifeKeeper for Linux clustering software has been tested and is supported. Presently a Linux/Secure Path configuration is limited to a two-node cluster. Refer to http://www.hp.com/go/securepath for any restriction on Linux with Secure Path.
The MSA1000 has the ability to be configured with thirty-two LUNs. Best practices would dictate generally no more than sixteen servers accessing a single MSA1000. More commonly, users have had an average of five to eight nodes. This can be any combination of hosts or clusters with different operating systems while holding fast to the guidelines and limits described in the above paragraphs. Performance within these guidelines is heavily dependent on the actual number of end users and types of applications being employed.
For more information, click on the link: http://.www.hp.com/enterprise/highavailability/index.html.

Optional Software

HP ProLiant Cluster HA/F200 for MSA1000 (Microsoft)

The ProLiant Cluster HA/F200 for MSA1000 uses HP's industry-leading ProLiant servers, HP StorageWorks Modular Smart Array 1000, Ethernet server to server interconnect, and HP's industry-leading installation and systems management utilities.
The ProLiant Cluster HA/F200 for MSA1000 kit delivers a higher level of availability in cluster environments by enabling multi-path Fibre Channel connections. Secure Path management software, included with the kit, features support for a redundant Fibre Channel infrastructure (two paths through the Fibre Channel hub or Fabric Switch) utilizing dual Host Bus Adapters in each server connected to one or more MSA1000 storage subsystems, each with dual RAID controllers.
Tested configurations:

- Up to four (4) heterogeneous/homogeneous clusters per SAN (e.g., 2-node, 4 node, 8-node depending on OS version limitations)
- Up to ten (10) MSA1000's per SAN
- Heterogeneous OS's (NT, W2K, W2K3, NW, Linux); cluster size is OS dependent (e.g., 4 node for NT, W2K, NW, & Linux)
- Cluster nodes can attach to up to two (2) MSA1000's
- Available now for Windows Server 2003, Windows 2000 and Windows NT.

HP ProLiant Cluster HA/F200 for MSA1000 (Microsoft) 252409-B24

HP Serviceguard for Linux

HP Serviceguard is a high availability solution that leverages the strength of HP's experience in the HA business, bringing the best-in-class mission critical technologies to the Linux environment and ProLiant and Integrity servers. HP Serviceguard provides critical applications the high availability that enterprise customers require for 24x7 business operations. It is designed to protect applications from a wide variety of software and hardware failures, monitoring the health of each server (node) and quickly responding to failures including system processes, system memory, LAN media and adapters, and application processes. Serviceguard enables customers to cluster HP ProLiant and Integrity server families with shared storage from HP Modular Smart Array 500 to HP StorageWorks XP disk arrays in a 2-node SCSI or 2 to 16-node Fibre Channel configuration.

Please refer to the HP ProLiant High Availability web site under Linux clustering for ProLiant for the latest information on Serviceguard for Linux: http://www.hp.com/servers/proliant/highavailability/serviceguard
For general Serviceguard information (HP-UX and Linux), please refer to: http://www.hp.com/go/serviceguard

HP Serviceguard for Linux, Red Hat EL 3 and SLES8/UL 305199

HP ProLiant Cluster HA/F100 for MSA1000 (Microsoft)

The ProLiant Cluster HA/F100 for MSA1000 is a robust, integrated cluster solution providing high availability for applications and data in business-critical environments. An ideal platform for business-critical databases, large business applications, email or file/print services, the ProLiant Cluster HA/F100 for MSA1000 offers Fibre Channel-based clustering at a fraction of the cost of proprietary cluster solutions.
The ProLiant Cluster HA/F100 for MSA1000 exploits HP's industry-leading servers, HP StorageWorks Modular Smart Array 1000, Ethernet interconnect and HP's leading installation and systems management utilities. Cluster Management is provided by Microsoft's Cluster Server software, included as part of Microsoft NT Server 4.0 Enterprise Edition, and Microsoft Windows 2000 Advanced Server.
Available now for Windows Server 2003, Windows 2000 and Windows NT.

HP ProLiant Cluster HA/F100 for MSA1000 (Microsoft) 252408-B24

HP ProLiant Clusters for NetWare

HP supports a broad range of solutions for NetWare Cluster services including configurations featuring the MSA1000 and optionally with HP StorageWorks Secure Path. These solutions provide high availability and maximum resource utilization for NetWare environments from small file sharing implementations to enterprise business computing. Single-path (single controller, non-Secure Path) NetWare clusters of up to 12-nodes have been successfully tested. Presently 2-node NetWare clusters with Secure Path have been tested and approved with larger NetWare cluster testing planned. Multiple NetWare clusters are allowed.
NOTE: Refer to http://www.hp.com/go/securepath for the latest Secure Path for NetWare parameters.

Optional Software

HP ProLiant Parallel Database Clusters for Oracle on MSA1000

The HP Parallel Database Clusters (PDC) for Windows and Linux provide the industry's leading platform for deployment of Oracle 9i Real Application Clusters. The PDC is a multi-node (up to six in Microsoft environments and up to four with Linux)) shared-storage clustering environment that enables industry standard Windows and Linux platforms to deliver performance previously limited to very large SMP (16 to 32 processor) environments. Every server node in the cluster has concurrent read-write access to the common shared database residing on the MSA1000 storage SAN. The multi-node architecture is inherently highly available, loss of any single node results in some degradation of performance but the database remains active and accessible. When optimally integrated with Oracle load balancing and transparent application reconnect features, clients are completely insulated from the loss of a server resource or an Oracle instance failure on a node. To complement the high availability of the server cluster in a Windows environment, the Parallel Database Cluster integrates HP StorageWorks Secure Path for fully redundant access to the database in the even of any failure in SAN connectivity. Secure Path for Linux will be available at a later date. Combined, the Oracle clustering technology and HP platform technology deliver cost effective and highly available enterprise solutions for database applications.
For more specific information concerning configuration, interconnect options, and dual path software refer to the HP/Oracle site at http://h18000.www1.hp.com/solutions/enterprise/highavailability/oracle/index.html.

HP OpenView Storage Mirroring

HP OpenView Storage Mirroring (SM) is cost effective host-based software product for remote storage replication over IP networks. Storage Mirroring provides near real-time full application or file recovery up to the last byte replication. SM is an excellent choice for low bandwidth; low storage volume changes and meets business recovery goals within minutes or hours. The immediate return on investment is realized in the reduced management cost associated with branch or small offices networks.

- Supports Microsoft Windows 2000/NT/2003servers
- Application aware and supported with Exchange, SQL and Oracle
- Host-based remote replication for TCP/IP networks
- Data distribution one-to-many or 'fan-out' to multiple destinations
- Data migration utility for transferring large data projects
- Cost effective investment for a high return on business continuance
- Provides a cost effective solution to gain a competitive advantage position

for more information visit http://h18006.www1.hp.com/products/storage/software/sm/index.html

Configure to Order Program Information

HP introduces the new Configure to Order program on a limited basis. It is not yet available in all areas. The MSA1000 and its options may or may not be factory installed in a rack with add-on controllers, switches, hubs, MSA30 enclosures and hard drives. The MSA1000 may be integrated with 64-bit Integrity and PA-RISC servers or ProLiant or as standalone storage.

Service and Support, HP Care Pack and Warranty Information

Warranty

Three-year Limited Warranty for MSA1000, Fibre Channel Cables and SFP Transceivers; 3 years parts exchange; 1 year labor; 1 year on-site; next business day response. Options for the MSA1000 carry their own warranty. Refer to HP's Limited Warranty Statement for further details.

Warranty Upgrade Options

- Response – Upgrade on-site response from next business day to same day 4 hours
- Coverage – Extend hours of coverage from 9 hours x 5 days to 24 hours x 7 days
- Duration – Select duration of coverage for a period of 1, 3, or 5 years

Storage Service Packages

- HP Care Pack is defined as an upgrade to the product warranty attribute, available for a specific duration and hours of coverage.
- HP Care Pack is not available for less than the product's warranty duration.
- HP Care Pack is available for sale anytime during the warranty period for most products, but the commencement date will be the same as the Warranty Start Date (delivery date to end user customer). Proof of purchase may be required.
- HP Care Pack services are prepaid.

For additional information on Product Services and HP Care Pack, as well as orderable part numbers, please refer to the URL: http://www.hp.com/hps/carepack/.
If you have specific questions about availability or how to obtain services contact your local HP representative. Contact information for your local area can be found at:
http://www.hp.com/services.

Software Product Services

Software product services

Product support provides the customer access to HP's experienced technical support resources, as well as access to HP's Information Services database for support on a variety of multi-vendor/multiplatform software products. Product support includes escalation and problem coordination with the appropriate engineering group. HP Services offer a variety of options to allow you to tailor your product service to meet the needs of your organization. Basic warranty on products can be uplifted from day one to ensure you receive the service you need when you need it.

Warranty and support

HP warrants only that the software media will be free of physical defects for a period of ninety (90) days from delivery.

The following services are offered as HP Care Pack Services at the time of software product order:

- Software Technical Support 24 x 7 (1 and 3 years) is available 24 hours per day, Monday through Sunday, including holidays (includes phone-in software technical support 24 x 7 and software product and documentation updates).
- Installation Service (software installation) and Installation and Startup Service (software installation, configuration, startup testing and knowledge transfer).
- HP Care Pack services must be ordered with the product and are prepaid.
- For tailored support contracts based on personalized statement of work contact your local support center via http://www.HP.com/support.

Secure Path software services

- Software product services included with Secure Path: One year of Software Technical Support 24 x 7 HP Care Pack Services (includes phone-in software technical support 24 x 7 and software product and documentation updates).
- HP Care Pack services are available to upgrade the one year of Software Technical Support 24 x 7 included with the Secure Path product to 3 full years.
- Installation service (software installation)

For additional software product services information for North American HP Care Pack services, as well as orderable part numbers, please refer to the URLs listed below:
All storage services: http://www.hp.com/hps/storage/.
All HP Care Pack Services: http://www.hp.com/hps/carepack/storage/cp_networked.html.
Software Support HP Care Pack Services: http://www.hp.com/hps/carepack/software/cp_storage.html.
Installation and Startup Services: http://www.hp.com/hps/storage/ns_implementation.html.
If you have specific service questions contact your local HP representative. Contact information for your local area can be found at: http://www.compaq.com/support.
Maintenance releases, bug fixes and software patches are available at:
http://www.compaq.com/support/sanworks.

Hardware Product Services

- Installation services that include basic installation and Installation and Startup
- On-site maintenance (includes warranty support)
- Response time upgrades during the warranty period
- Post-warranty coverage
- RAID setup and performance consulting via statement of work
- Migration service consulting via statement of work
- Environmental, Mission Critical Services

For additional hardware installation and maintenance information, please refer to the URLs listed below:

http://h18005.www1.hp.com/services/carepaq/us/hardware/.

Array Installation and Startup Services

The HP installation and startup for HP StorageWorks Disk Arrays service package provides installation and configuration of HP StorageWorks Disk Array products. Service highlights include:

- Service planning
- Installation and Startup provides installation, Virtual Disk Design and configuration of the MSA1000. This includes:
  - Service planning
  - Service deployment
  - Installation Verification Testing (IVT) required for this service
  - Customer orientation session
- Please contact your local HP sales organization for further details.

Step 1 – Order Required Items

HP StorageWorks Modular Smart Array 1000 — 201723-B22

Includes:

(1) MSA1000 Controller with 256 MB cache

(1) MSA Fibre Channel I/O Module with 2 Gb SFP SW Transceiver

Redundant Hot Pluggable Power Supply/blower assemblies

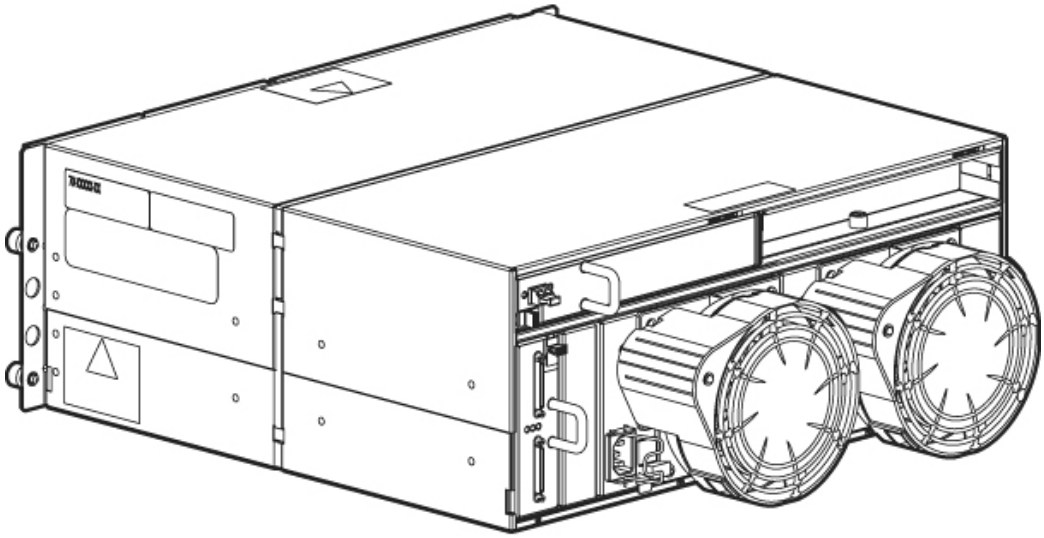
Universal Rackmounting Kit

MSA1000 Support CD & Documentation

Serial cable

(2) Power cables

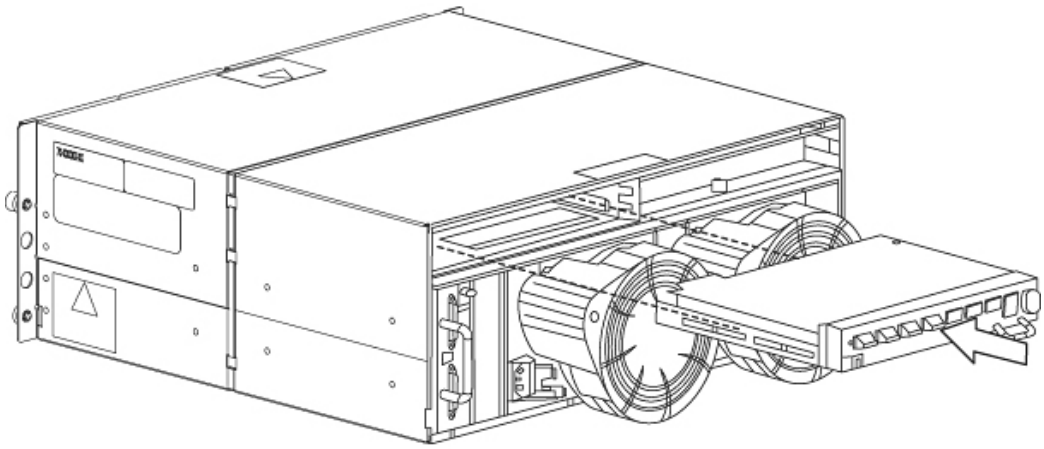
NOTE: Fibre Channel cables are ordered separately.



Step 2 – Choose Optional Non-Redundant MSA1000 System Options

MSA SAN Switch 2/8 (integrated) (Includes four 2Gb SFPs)	288247-B21
MSA Hub 2/3 (integrated) (Includes two 2 Gb SFP transceivers)	286763-B21

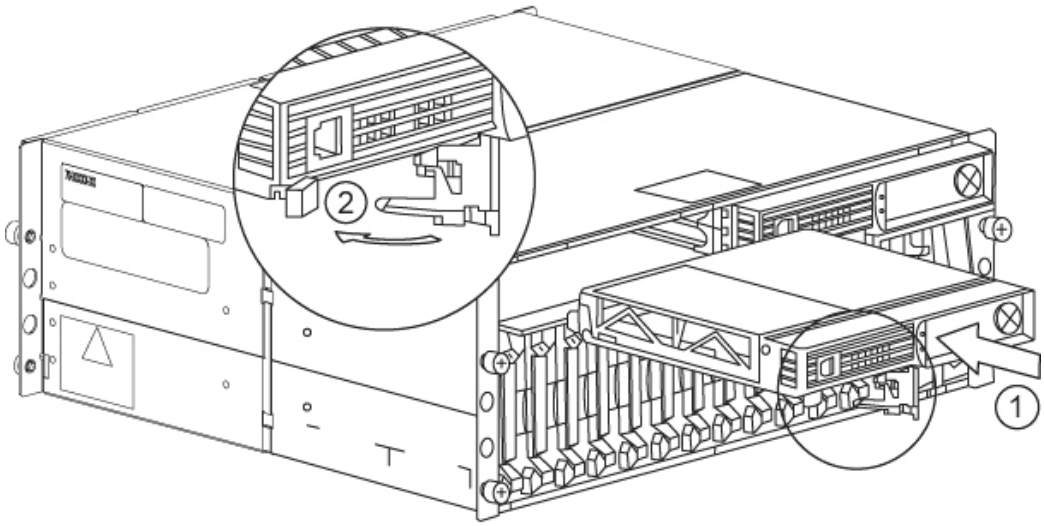
NOTE: The MSA SAN Switch 2/8 has a total of eight Fibre Channel ports. There are seven ports accessible by the user and the eighth is internal to the controller. Four SFPs are shipped installed in the Switch.
The MSA Hub 2/3 has two external Fibre Channel ports, both of which already have 2 Gb transceivers installed. (Not supported with HP-UX, Tru64 UNIX or OpenVMS at this time.



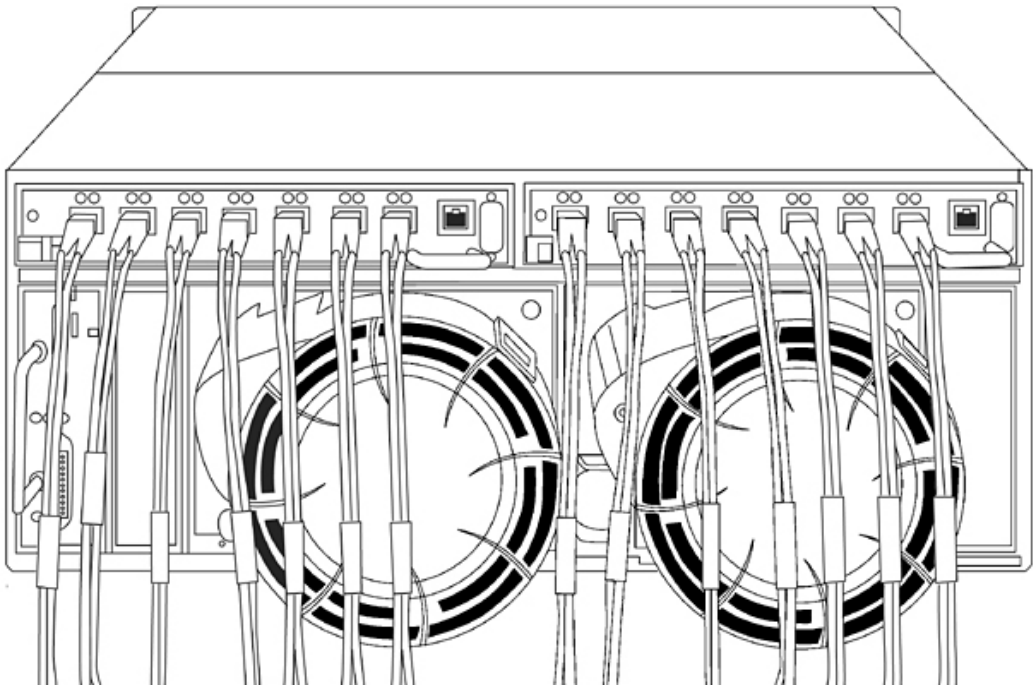
Step 3 – Choose Redundant MSA1000 System Options

MSA1000 Controller	218231-B22
256 MB Cache Modules for Controller (one additional for each controller)	254786-B21
HP StorageWorks Secure Path (appropriate model for the operating system)	

NOTE: Redundant configurations require two Host Adapters per server, an additional controller and I/O, a MSA SAN Switch 2/8 or a MSA Hub 2/3 (for Windows or NetWare), and Secure Path software for each server. For Microsoft ProLiant Clusters, Secure Path software can be substituted with the ProLiant Clusters HA/F200 kit.
Mixing of the MSA Fibre Channel I/O Modular and the MSA SAN Switch 2/8 or the MSA Hub 2/3 is not supported. When configuring the MSA1000 for redundant controllers use either two MSA Fibre Channel I/O Modules, two MSA Hub 2/3s, or two MSA SAN Switch 2/8s.



MSA Fibre Channel I/O Module (Includes one 2 Gb SFP transceiver)	218960-B21
MSA SAN Switch 2/8 (integrated) (Includes four 2 Gb SFP transceivers)	288247-B21
MSA Hub 2/3 (integrated) (Includes two 2 Gb SFP transceivers)	286763-B21



Step 4 – Choose Supported Options For 2 Gb or 1 Gb Infrastructure

2 Gb Fibre Channel Transceiver (SFP)	2 Gb SFP SW Transceiver Kit	221470-B21
2 Gb Fibre Channel Fabric "B-Series" family of switches	HP StorageWorks MSA SAN Switch 2/8 (embedded option for MSA1000 only) **NOTE:** Includes four 2Gb SFP transceivers.	288247-B21
	HP StorageWorks SAN Switch 2/8V	AA979A
	HP StorageWorks SAN Switch 2/8V Power Pack	AA980A
	HP StorageWorks SAN Switch 2/16V	AA978A
	HP StorageWorks SAN Director 2/128	AA981A
	HP StorageWorks SAN Director 2/128 Power Pack	AA982A
	HP StorageWorks core 2/64	332177-B22
	HP StorageWorks core 2/64 Power Pack	332178-B22
	HP StorageWorks SAN Switch 2/32	240603-B21
	HP StorageWorks SAN Switch 2/32 Power Pack	333764-B21
	HP StorageWorks SAN Switch 2/16N	AA990A
	HP StorageWorks SAN Switch 2/16N Power Pack	AA977A
	HP StorageWorks SAN Switch 2/16	322118-B21
	HP StorageWorks SAN Switch 2/16 Power Pack	322119-B21
	HP StorageWorks SAN Switch 2/16-EL	334181-B21
	HP StorageWorks SAN Switch 2/8 Power Pack	322121-B21
	HP StorageWorks SAN Switch 2/8-EL	322120-B21

Configuration Information

2 Gb Fibre Channel Fabric "M-Series" family of switches	HP StorageWorks Director 2/140 **NOTE:** 64-ports active.	316093-B21
	HP StorageWorks Director 2/64	286809-B21
	HP StorageWorks Edge Switch 2/32 **NOTE:** 16 active ports.	286810-B21
	8-FlexPort upgrade for Edge 2/32	302660-B21
	HP StorageWorks Edge Switch 2/24 **NOTE:** 8 ports active.	316095-B21
	8-FlexPort upgrade for Edge 2/24	316096-B21
	HP StorageWorks Edge Switch 2/12 **NOTE:** 4 ports active.	348406-B21
	4-FlexPort upgrade for Edge 2/24	348407-B21
2 Gb Fibre Channel Fabric "C-Series" family of switches	Cisco MDS 9506 Multilayer Director A7471A	346702-B21
	Cisco MDS 9509 Multilayer Director A7462A	332306-B21
	Cisco MDS 9216 Multilayer Fabric Switch A7473A	332315-B21
	Cisco MDS 9120 Fabric Switch w/0 SFPs A7426A	346700-B21
	Cisco MDS 9140 Fabric Switch w/0 SFPs A7427A	346701-B21
	NOTE: Cisco Directors and switches not yet certified with HP-UX for the MSA1000 For "C-Series" information refer to: http://hp.com/go/SAN.	
2 Gb Fibre Channel Integrated Hub	MSA Hub 2/3 (integrated option, comes complete with two SFPs) **NOTE:** Not for use with ProLiant Blade servers, HP-UX, Tru64 UNIX or OpenVMS.	286763-B21
2 Gb Fibre Channel HBAs	FCA2210 Host Adapter (NetWare OS)	281540-B21
	FCA2214 Host Adapter (Linux, Microsoft 32-bit)	281541-B21
	FCA2214DC Host Adapter (Linux, Microsoft OS 32-bit) dual channel	321835-B21
	FCA2404 Host Adapter PCI-X (32-bit Windows)	305573-B21
	FCA2404DC dual channel Host Adapter PCI-X (32-bit Windows)	323264-B21
	Host Adapter for Windows Server 2003 64-bit, Integrity servers	AB232A
	Host Adapter for 64-bit Linux, Integrity servers	A6826A
	HP-UX HBA: PCI 2 GB Fibre Channel Adapter	A6795A
	HP-UX HBA: PCI-X Dual Channel 2 Gb Fibre Channel	A6826A
	HP-UX HBA: PCI-X 2 Gb Fibre Channel/1000Base-SX	A9782A
	HP-UX HBA: PCI-X 2 Gb Fibre Channel/1000Base-T	A9784A
Fibre Channel Cables for 2 Gb Infrastructure	Use 2 Gb Fibre Channel cables when connecting the MSA Fibre Channel I/O Module or the MSA SAN Switch 2/8 to FCA2101 HBA(s)	
	2 m LC-LC Multi-Mode Fibre Channel Cable	221692-B21
	5 m LC-LC Multi-Mode Fibre Channel Cable	221692-B22
	15 m LC-LC Multi-Mode Fibre Channel Cable	221692-B23
	30 m LC-LC Multi-Mode Fibre Channel Cable	221692-B26
	50 m LC-LC Multi-Mode Fibre Channel Cable	221692-B27

Fibre Channel Cables for 1 Gb Fabric Switches and Hub	Use 1 Gb Fibre Channel cables when connecting the MSA Fibre Channel I/O Module and FCA2101 HBA(s) to 1 Gb fabric switches or hubs.	
	2 m LC-SC Multi-Mode Fibre Channel Cable	221691-B21
	5 m LC-SC Multi-Mode Fibre Channel Cable	221691-B22
	15 m LC-SC Multi-Mode Fibre Channel Cable	221691-B23
	30 m LC-SC Multi-Mode Fibre Channel Cable	221691-B26
	50 m LC-SC Multi-Mode Fibre Channel Cable	221691-B27

Step 5 – Choose Hard Drives & StorageWorks Enclosures

Hard Drives	36.4 GB Pluggable Ultra320 Universal Hard Drive, 10,000 rpm (1")	286713-B22
	72.8 GB Pluggable Ultra320 Universal Hard Drive, 10,000 rpm (1")	286714-B22
	146.8 GB Pluggable Ultra320 Universal Hard Drive, 10,000 rpm (1")	286716-B22
	18.2 GB Pluggable Ultra320 Universal Hard Drive, 15,000 rpm (1")	286775-B22
	36.4 GB Pluggable Ultra320 Universal Hard Drive, 15,000 rpm (1")	286776-B22
	72.8 GB Pluggable Ultra320 Universal Hard Drive, 15,000 rpm (1")	286778-B22
	NOTE: All Ultra320 Universal Hard Drives are backward compatible to U2 or U3 speeds.	
	NOTE: For complete compatibility information, refer to the HP SCSI Hard Drive Compatibility table located at http://www.hp.com/go/msa1000.	

StorageWorks Enclosures	The MSA1000 cabinet holds fourteen 1" Universal Drives. Add one StorageWorks Enclosure to increase capacity up to 28 drives. Add two HP StorageWorks Enclosures to increase capacity up to the maximum of 42 drives.	
	MSA30 single bus enclosure **NOTE:** Maximum of two can be connected to the MSA1000.	302969-B21

Step 6 – Choose Rack Options

10647 (47U) Rack Cabinet - Pallet	245160-B21
10647 (47U) Rack Cabinet - Crated	245160-B23
10642 (42U) Rack Cabinet - Pallet	245161-B21
10642 (42U) Rack Cabinet - Shock Pallet **NOTE:** It is mandatory to use a shock pallet in order to ship racks with equipment installed.	245161-B22
10642 (42U) Rack Cabinet - Crated	245161-B23
10636 (36U) Rack Cabinet - Pallet	245162-B21
10636 (36U) Rack Cabinet - Shock Pallet **NOTE:** It is mandatory to use a shock pallet in order to ship racks with equipment installed.	245162-B22
10636 (36U) Rack Cabinet - Crated	245162-B23
10622 (22U) Rack Cabinet - Pallet	245163-B21
10622 (22U) Rack Cabinet - Shock Pallet **NOTE:** It is mandatory to use a shock pallet in order to ship racks with equipment installed.	245163-B22
10622 (22U) Rack Cabinet - Crated	245163-B23
S10614 (14U) Rack Cabinet - Shock Pallet **NOTE:** It is mandatory to use a shock pallet in order to ship racks with equipment installed.	292302-B22
Rail Kit for mounting in a M-Series rack	313877-B21

Step 7 – Choose HP Care Pack Services

HP Care Pack Options	9x5, Next Business Day, On-Site Coverage, 3 years (6-3)	103840-002
	9x5, Next Business Day, On-Site Coverage, 3 years (2-5-2)	FM-FCXHW-36
	9x5, 4-Hour Response, On-Site Coverage, 3 years (6-3)	402165-002
	9x5, 4-Hour Response, On-Site Coverage, 3 years (2-5-2)	FM-FC4HR-36
	24x7, 4-Hour Response, On-Site Coverage, 3 years (6-3)	402164-002
	24x7, 4-Hour Response, On-Site Coverage, 3 years (2-5-2)	FM-FC724-36
	9x5, Next Business Day, On-Site Coverage, 5 years (6-3)	170183-002

Configuration Examples

Two Node Redundant Cluster Solution (Intel based servers)

Quantity	Description	Part Number
1	HP StorageWorks Modular Smart Array 1000	201723-B22
1	Additional MSA1000 Controller	218231-B22
2	MSA Hub 2/3 (not available for Linux with Secure Path or HP-UX environments)	286763-B21
4	Host Adapter (appropriate model for operating system)	
4	2 m LC-LC Multi-Mode Fibre Channel Cable	221692-B21
1	ProLiant Cluster HA/F200 for MSA1000 (includes Secure Path for two servers)	252409-B24
14	36.4 GB Pluggable Ultra320 Universal Hard Drive, 15K	286776-B21

4 Host, 6TB, Redundant SAN Solution (Intel based servers)

Quantity	Description	Part Number
1	HP StorageWorks Modular Smart Array 1000	201723-B22
1	Additional MSA1000 Controller	218231-B22
2	256 MB Cache Modules for Controller (one additional for each controller)	254786-B21
2	MSA SAN Switch 2/8 (Includes four 2 Gb SFP transceivers)	288247-B21
8	Host Adapter (appropriate model for operating system)	
8	2 m LC-LC Multi-Mode Fibre Channel Cable	221692-B21
4	Secure Path Workgroup Edition (1 license per server), appropriate for operating system	
2	HP StorageWorks Enclosure MSA30 (4314R)	190209-001
42	146.8 GB Pluggable Ultra320 Universal Hard Drive, 10,000 rpm (1")	286716-B22

Technical Specifications

Modular Smart Array 1000 (MSA1000)	**LED Indicators on Front** (3)	Power	
		Fault detected in one or more sub-systems	
		Fault in Enclosure Management	
	LED Indicators for Drive Modules (3)	Drive Access (center)	
		Online (left)	
		Drive Failure (right)	
	LED Indicators on Rear Panel (4)	Power Supply/Blower Assembly Fault (1)	
		EMU (3) Power, A bus, B bus	
	Interface	Ultra3 SCSI to Hard Drives	
		2 Gb Fibre Channel to Hosts	
	Maximum Number of Drives	Fourteen, 1-inch HP Ultra2, Ultra3 or Ultra 320 Universal Hard Drives (msa1000 Cabinet); expandable to 42 using two additional HP StorageWorks 4200/4300 Enclosures	
	Temperature Range	**Operating**	50° to 95° F (10° to 35° C)
		Shipping	-22° to 122° F (-30° to 50° C)
			NOTE: Derated 1°C per 1,000 feet of elevation to 10,000 ft.
	Relative Humidity	**Operating**	10% to 90%
		Non-operating	Up to 95%
	Input Power Requirements	**Rated Input Voltage**	100 to 240 VAC
		Rated Input Frequency	50 to 60 Hz
		Rated Input Current	6 A Max
		Input Power (max)	549 W*
	Heat Dissipation (max)	1876 Btu/hr*	
		NOTE: Input Power and Heat Dissipation specifications are maximum values and apply to worst-case conditions at full rated power supply load. The power/heat dissipation for your installation will vary depending on the equipment configuration.	
	MSA1000 Cabinet	4U Rack Form Factor	
		Dimensions (H x W x D)	6.9 x 19 x 20.5 in (17.5 x 48.3 x 52.1 cm)
		Weight	Net 55 to 85 lb (24.95 to 38.56 kg)
	Shipping Packaging	**Dimensions** (L x W x D)	28.5 x 14.81 x 33.13 in (72.4 x 37.6 x 84.1 cm)
		Weight (Gross)	75 to 105 lb (34.02 to 47.63 kg)
	User Interface	Controller display with Status Indicators (2) and push buttons (4) on front of controller	
	Electrical Interface	LVD (Low Voltage Differential)	
	Protocol Support	Wide Ultra3 SCSI	
	SCSI Ports	4-channel: 2 internal, 2 external	
	Drives Supported	Up to 42 drives	
	Maximum Capacity	6TB (42 drives x 146GB)	
	Logical Drives (LUN)	Up to 32 Logical Drives	
	Maximum Logical Drive size	2.0TB	

Technical Specifications

Modular SAN Array 1000 Controller (218231-B22)	**User Interface**	Controller Display with Status Indicators (2) and Push Buttons (4) Status Indicators on front of Controller (16)	
	Electrical Interface	LVD (Low Voltage Differential)	
	Protocol Support	Wide Ultra3 SCSI (160 MB/s per channel)	
	SCSI Ports	4-channel: 2 external/2 Internal	
	Drives Supported	Up to 42 drives	
	Maximum Capacity	6.0 TB (42 drives x 146 GB)	
	Logical Drives	Up to 32 logical drives	
	RAID Support	RAID ADG (Advanced Data Guarding)	
		RAID 5 (Distributed Data Guarding)	
		RAID 1+0 (Striping & Mirroring)	
		RAID 0 (Striping)	
	Cache Memory	Up to 512 MB Read/Write (256 MB modules). If redundant controllers are used they must have equally configured cache	
		ECC protection, battery-backed, and removable	
		Standard as of November 19, 2002: 256 MB cache memory (single module)	
	Cache Batteries	Up to three days of redundant battery life, removable for easy replacement	
	Upgradeable Firmware	2 MB flashable ROM	
	Disk Drive and Enclosure Protocol Support	HP Ultra 320, Ultra3, and Ultra2 SCSI 1-inch Universal drives	
	Packaging	**Dimensions** (L x W x D)	17 x 12.5 x 7.75 in (43.2 x 31.75 x 19.7 cm)
		Weight (Gross)	6 lb (2.72 kg)

Modular SAN Array Fibre Channel I/O Module (218960-B21)	**Connector Type**	LC	
	Number of Fibre Channel Ports	One 2 Gb Fibre Channel Port using removable Small-Form-Factor-Pluggable Transceiver (SFP)	
	Bandwidth	200 MB/s	
	Operation Modes	Fibre Channel Class 2 and 3 connectionless service	
	Protocols Supported	Fibre Channel	
	Packaging	**Dimensions** (L x W x D)	17 x 12.5 x 7.75 in (43.2 x 31.75 x 19.7 cm)
		Weight (Gross)	6 lb (2.72 kg)

Technical Specifications

MSA SAN Switch 2/8 (288247-B21)	**Performance**	2.125 Gbit/sec line speed, full duplex ;1.063 Gbit/sec line speed, full duplex; Auto-sensing of 1 Gbit/sec and 2 Gbit/sec port speeds; optionally programmable to fixed port speed; Speed matching between 1 Gbit/sec and 2 Gbit/sec ports Aggregate bandwidth 64 Gbit/sec end to end Fabric latency <2.1 µsec with no contention, cut-through routing at 2 Gbit/sec		
	Interoperability	SAN Switch 2/8-EL, SAN Switch 2/16-EL, SAN Switch 2/32, SAN Switch 2/64, SAN Switch 8, SAN Switch 16, SAN Switch 8-EL, SAN Switch 16-EL, Integrated/32, Integrated/64		
	Switch bandwidth	32 Gbit/sec end to end		
	Maximum frame size	2112-byte payload		
	Port types	8 ports universal (one internal, seven external), FL_Port, F_Port, and E_Port; self-discovery based on switch type (U_Port)		
	Media types	Small form-factor pluggable (SFP) four included standard; short wavelength (SWL) up to .31 mi (500m), long wavelength (LWL) up to 21 mi (35 km); distance depends on fiber-optic cable and port speed		
	Classes of service	Class 2, Class 3, Class F (inter-switch frames)		
	Management access	10/100 Ethernet port (RJ-45); Serial port (RS-232)		
	Management	Advanced Web Tools included; Fabric Manager (optional) Management access In-band via Management Server.		
	Security	Fabric security for configuration management, SAN access, and authentication/authorization		
	Supported software	Telnet, SNMP, WEBTOOLS, Zoning, Fabric Watch, Extended Fabrics, Remote Switch, Trunking, Advanced Performance Monitoring		
	Fabric services	Simple Name Server, Registered State Change Notification (RSN), Alias Server (multicast); and Zoning, WEB TOOLS. Optional QuickLoop, Fabric Watch, Extended Fabrics, and Remote Switch, Trunking, Advanced Performance Monitoring		
	Diagnostics	Diagnostics POST and embedded online/offline diagnostics		
	Dimensions (h x w x d)	SAN Switch 2/8: 7.75 x 12.5 x 17 in (19.68 x 31.75 x 43.18 cm)		
	Shipping	6 lb (2.72.kg)		
	Humidity range	5% to 85% non-condensing at 104° F (40° C)		
	Environment	**Temperature**	**Operating**	32° F to 104° F (0° C to 40° C)
			Non-operating	-31° F to 147° F (-25° C to 70° C)
		Vibration	**Operating**	0.5 G p-p, 5-500 Hz
			Non-operating	2.0 G p-p, 5-500 Hz
	Connector Type	LC		
	Protocol	SCSI, IP		
	Data Transfer Method	64-bit/66 MHz PCI		
	Maximum Transfer Rate	200 MB		
	Packaging	**Dimensions** (L x W x D)	11 x 8.5 x 3 in (27.9 x 21.6 x 7.6 cm)	
		Weight (Gross)	1 lb (0.45 kg)	

Multi-Mode Fibre Channel Cables Kits (218960-B21)	**Cable Type**	LC-LC (2 Gb to 2 Gb connections) and LC-SC (2 Gb to 1 Gb connections) 50 Micron multi-mode Fiber	
	Available Cable Lengths	6.5 ft, 16.4 ft, and 49.2 ft (2 m, 5 m, and 15 m)	
	Packaging	**Dimensions** (L x W x D)	11.5 x 9 x 1.5 in (29.2 x 22.8 x 3.8 cm)
		Weight (Gross)	0.75 to 1 lb (0.34 to 0.45 kg)
